

Meri Gogichashvili

FULL-STACK WEB DEVELOPER

merigogichashvili13@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SKILLS

Ruby, Ruby on Rails, JavaScript, React, HTML5, CSS3, Scss, Tailwind, PostgreSQL, Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

Cosmic Development

Remote

Junior Full-stack Ruby on Rails Developer

September 2022 – Present

- Extracted hard-coded strings within the codebase and ensured 100% internationalization of the app with (I18n) support using DeepL.
- Tackled proactively a multitude of pending tasks (TODOs) within the codebase, which enhanced the code and the test quality.
- Created numerous CRUD forms using Turbo Frames and Stimulus for improved and dynamic user interactions while ensuring maximum test coverage.
- Engaged in collaborative pair-programming sessions, immersed in agile workflow, and participated in stand-up meetings, and retrospectives.

Highlighted projects

ALC - A simple mobile responsive personal side project *in progress* is built to reach a bigger audience and ease the process of gathering donations for the Adventist Learning Center. ALC provides quality education to Syrian and Kurdish Refugees living in Beirut, Lebanon and I was one of the international teachers who volunteered there before transitioning into tech.

- Tech stack: Ruby on Rails, SCSS, Stimulus.js, PostgreSQL.
- Deployed to Heroku and images stored in Cloudinary.

Math Resource - A full-stack educational application *in progress* for aspiring young programmers with an interest in solving math problems with Python. As part of an internship program at UNILAB, I collaborated with the front-end team and built the chore Auth pages with 100% validations coverage and forms, About, and Success pages.

- Tech stack: JavaScript, SCSS, Python

EDUCATION

Microverse

September 2021 – May 2022

Remote Full-stack Web Development Program, Full Time.

- Spent 1000+ hours mastering algorithms, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Free University of Tbilisi

International Relations, Middle-East Studies

September 2013 – July 2017

- Demonstrated great skills in acquiring new languages: Arabic, and French.
- Took an active part in interdisciplinary interactions within the university and was awarded as one of the best presenters at the conference.
